Idea Submission Stage – Instructions

Choose Your Challenge. Build Your Idea. Submit Your Solution.

IDEA SUBMISSION IS NOW LIVE!

You can now submit your idea for Startup Buildathon India 2026!

Planning to participate solo? You can submit your idea individually.

Planning to participate as a team? We strongly recommend finalising your team before submitting your idea.

Important: If you submit your idea individually and later decide to join a team, your existing idea submission will be deleted and you will have to submit again as team.

So, make sure you finalise your participation format (Solo or Team) before proceeding with your idea submission.

Get ready to turn your idea into reality!

How to Apply & Submit Your Idea

Step 1: Apply for the Buildathon

Complete the registration process with your team details.

Step 2: Identify Your Challenge

Choose any problem statement or challenge you want to solve. There are no predefined problem statements.

Step 3: Develop Your Idea

Prepare your proposed solution and explain how you intend to address the selected challenge.

Step 4: Submit Your Idea

Submit the following as part of your Idea Submission:

- **Problem Statement:** The challenge or problem you have identified.
- **Proposed Solution:** Your idea and how it addresses the identified problem.

- **Solution Architecture:** The architecture of your proposed solution.
- **Google AI Tools:** Clearly mention which of the following tools you have used or are planning to use:
    - Google AI Studio
    - Google Antigravity
    - Google Agent Skills
- **Google AI Models:** Mention the Google AI model/models you have used or are planning to use in your idea.
- **Pitch Deck:** Upload your pitch deck following the prescribed format shared by the programme.

Important Pitch Deck Submission Guidelines

- Pitch deck must be submitted in **PDF format only**.
- Maximum file size: **5 MB**.
- The pitch deck must strictly follow the prescribed format shared by the programme.
- Only PDF files within the 5 MB limit and following the prescribed format can be evaluated by the AI evaluation system.

Please refer to the shared pitch deck template for the exact format and structure to be followed while preparing your submission.

Make sure all the required information is provided before submitting your idea.
